

# Scanner Central Admin Console change history

## Content of change from 03.04.27 to 5.0.0

- New Feature:
  - The following model and software is now supported.
    - fi-7300NX
    - Network Setup Tool
    - PaperStream NX Manager

## Content of change from 03.04.24 to 03.04.27

- Improvement:
  - Usability of the installer has been improved.

## Content of change from 03.04.20 to 03.04.24

- Correction:
  - Fixed the issue that Scanner Central Admin Console moves behind windows when the Scanner Settings window for N7100 or the Job Mode Settings window for N7100 is closed.

## Content of change from 03.04.15 to 03.04.20

- Windows® 10 is supported.
- Corrected issues:
  - Fixed the defect that layout breakage in SCA Module Creator is caused by change of character size (to, for example, 125%, 150%).
- Improvement:
  - SCA Module Creator memorizes the selected folder as previously selected folder and shows the folder as default save destination when selecting folder next time.

## **Content of change from 03.03.07 to 03.04.15**

- N7100 has been supported.

## **Content of change from 03.02.10 to 03.03.07**
